Washington News.
New Yonz, April 9.
The Hersid's correspondent of Washington April 8, mays:—I learned to-day, from good authority, that the present administratior does not entirely agree with preceding one in their views respecting the proposed change in neval warfare, in addition to the abolition of the right to capture merchant ships by public armed vesiels as well as laid down in Secretry Marcy's letter upon orivateering. lotter upon privateering.

It is supposed that our government will it sist upon the abolition of blockades.

The officers have not been designated as yet. The Rance stoop of war Cumberland will be fing ship to the African Squadron. Gen. Scott's head quarters continue to be in New York. He has rooms here, and will visit the city occasionally. He is now in the city.

The administration has had under consideration the subject of Indian difficulties in Florida, and such measures are now in progress as to lead to the belief that their removal would be specifily effected.

Mr. Denver, ex-Congressman from California and now in Ohio, has been notified of his appointment as Commissioner of Indian Affairs. It is asserted on good authority that the general question of appointment of the foreign ministers will not be considered by the Cabinet for a month or two hence.
